

**INCIDENT MANAGEMENT SITUATION REPORT
TUESDAY, SEPTEMBER 2, 2003 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5**

CURRENT SITUATION:

Initial attack activity was moderate in the Western Great Basin Area and light everywhere else. Nationally, 171 new fires were reported. Two new large fires were reported, one each in the Rocky Mountain and Northern California Areas. One large fire was contained in the Rocky Mountain Area. Very high to extreme fire indices were reported in Arizona, California, Hawaii, Idaho, Montana, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Washington and Wyoming.

NORTHERN ROCKIES AREA LARGE FIRES:

An Area Command Team (Mann) is assigned to manage Blackfoot Lake Complex, Wedge Canyon, Robert, Middle Fork Complex, Trapper Creek Complex, Crazy Horse, Rampage Complex, and Little Salmon Creek Complex. An Area Command Team (Rounsaville) is assigned to manage Lincoln Complex, Winslow, East Complex, Rough Draw Complex, Cathedral Peak Complex, Rathbone and Burnt Ridge/Sheep Camp Complex. An Area Command Team (Ribar) is assigned to manage Cherry Creek Complex, Mineral-Primm, Fish Creek Complex, Black Mountain 2, Cooney Ridge and Gold 1. An Area Command Team (Greenhoe) is assigned to manage Sapp, Slim's Complex, Beaver Lake Complex, Cayuse Lake Complex, and Clear/Nez Fire Use Complex.

BLACKFOOT LAKE COMPLEX, Flathead National Forest. A Type 1 Incident Management Team (Mortier) is assigned. This incident, comprised of the Beta Lake, Doris Mountain, Lost Johnny, Ball Creek, Wounded Buck, Doe, Wildcat, Upper Lid, Dead Buck, Blackfoot Lake and Mid fires, is in timber, 19 miles east of Kalispell, MT. Fire spread aggressively through unburned areas adjacent to the flanks. Structure protection is in place for 55 residences.

MIDDLE FORK COMPLEX, Glacier National Park. A Type 1 Incident Management Team (Cable) is assigned. This incident, comprised of the Belton, Center and Harrison fires, is in timber, five miles east of West Glacier, MT. Moderate ground fire with occasional torching was observed. Structure protection is in place for 20 residences.

WEDGE CANYON, Flathead National Forest. A Type 2 Incident Management Team (Saleen) is assigned. This fire is in sub-alpine fir with down fuels, 14 miles northwest of Polebridge, MT. Fire had moved through the old Red Bench burn. Interior torching, spotting and crowning were observed. Structure protection is in place for 80 residences.

RAMPAGE COMPLEX, Glacier National Park. A Type 1 Incident Management Team (Cable) is assigned. This incident, comprised of the Double Mountain 1, Double Mountain 2, Riverview 1, Riverview 2 and Rampage, is in timber, 15 miles southeast of West Glacier, MT. A contingent of Australian fire managers is participating in management and suppression efforts. Moderate surface fire with occasional torching was observed. Structure protection is in place for 127 residences.

ROBERT, Flathead National Forest. A Type 1 Incident Management Team (Cable) is assigned. This fire is in timber, eight miles north of Columbia Falls, MT. A contingent of Australian fire managers are participating in management and suppression efforts. Fire behavior was minimal, characterized by slow burning ground fire with occasional torching. Structure protection is in place for 100 residences and six commercial properties.

TRAPPER CREEK COMPLEX, Glacier National Park. A Type 1 Incident Management Team (Cable) is assigned to the Trapper Creek, Paul Bunyan and Trout fires; a Type 2 Incident Management Team (Saleen) is assigned to the Wolf Gun fire. The complex is in mixed conifer with dead and down fuels, 45 miles northeast of Kalispell, MT. A contingent of Australian fire managers are participating in management and suppression efforts. Minimal fire activity with short upslope runs was observed. Structure protection is in place for three commercial properties.

CRAZY HORSE, Flathead National Forest. A Type 2 Incident Management Team (Chrisman) is assigned. This fire is in mixed conifer with heavy dead and down fuels, eight miles southwest of Condon, MT. Increased group torching occurred within the Mission Mountains Wilderness due to continued low humidity levels. Isolated areas of creeping fire were observed outside the wilderness. A contain/confine strategy using natural barriers is being implemented on the west flank in the Mission Mountains Wilderness.

LINCOLN COMPLEX, Helena National Forest. A Type 1 Incident Management Team (Studebaker) is assigned. This complex, comprised of the Moose-Wasson and Snow-Talon fires, is ten miles west of Lincoln, MT. Active surface fire, multiple tree torching, short duration crown runs and short range spotting were observed. The Moose-Wasson fire was contained. Structure protection is in place for 30 residences.

RATHBONE, Gallatin National Forest. A Type 2 Incident Management Team (Walker) is assigned. This fire is in timber, 17 miles northwest of West Yellowstone, MT. Moderate fire behavior with isolated torching and short runs was observed. Highway 191 is open through the fire area with a pilot car.

WINSLOW, Central Land Office, Montana Department of Natural Resources & Conservation. This fire is in timber, five miles southwest of Lakeview, MT. Activity increased with individual tree torching and interior burning. Structure protection is in place for five residences and two commercial properties.

CATHEDRAL PEAK COMPLEX, Custer National Forest. A Type 2 Incident Management Team (Benes) is assigned. This incident, comprised of the Cathedral Peak, Oliver and Salderbalm fires, is in timber, 10 miles south of Nye, MT. Minimal surface fire on steep slopes was observed.

BURNT RIDGE SHEEP CAMP COMPLEX, Lewis and Clark National Forest. A Type 2 Incident Management Team (Larsen) is assigned. This complex, comprised of the Burnt Ridge, Ant Park, Sheep Camp and Pioneer Ridge fires, is 12 miles southeast of Neihart, MT. Very active interior burning along the Smith River with single and group torching was observed.

ROUGH DRAW COMPLEX, Gallatin National Forest. This complex, comprised of the Rough Draw, Slippery Rock, Speculator 1, Speculator 2, Elbow, Brundage, Walbrun and Hawley fires, is five miles southeast of Livingston, MT. Isolated smokes and minimal open flame were observed throughout the complex.

EAST COMPLEX, Yellowstone National Park. This incident, comprised of the East and Grizzly fires, is ten miles east of Fishing Bridge Junction, WY. Fire activity increased for the second day due to warmer temperatures and lower relative humidity. Highway 20 is open for public use from 0600 to 2000 hours. The East Entrance Road is scheduled to open at 0600 on 9/2 and remain open unless safety is threatened by smoke or fire.

FISH CREEK COMPLEX, Lolo National Forest. A Type 1 Incident Management Team (Stam) is assigned. General Ralph E. Eberhart is scheduled to visit the Incident Command Post today. U.S. Army Task Force Steel Dragon (2nd Battalion, 82nd Field Artillery Regiment) commanded by Lt. Col. Gregory Schultz, at Fort Hood, TX is assigned. This incident, comprised of the Fish Creek, Thompson Creek, Surveyor Creek, Lower Quartz, Siamese Lake, Indian Creek, Middle Fork Indian Creek, Cedar Log and West Fork Indian Creek fires, is 35 miles west of Missoula, MT. The east flank was the most active with surface spread, torching and spotting within the designated perimeter. Structure protection is in place for 195 residences and one commercial property.

BLACK MOUNTAIN 2, Southwestern Land Office, Montana Department of Natural Resources & Conservation. A Type 1 Incident Management Team (Gelobter) is assigned. This fire is in mixed conifer, understory and grass, nine miles west of Missoula, MT. Fire behavior was minimal. Structure protection is in place for 650 residences.

CHERRY CREEK COMPLEX, Lolo National Forest. This incident, comprised of the Cherry Creek and Tepee Creek fires, is in lodgepole pine with heavy ground fuels, 12 miles southeast of Thompson Falls, MT. Minimal fire activity was observed. Structure protection is in place for 180 residences.

MINERAL-PRIMM, Lolo National Forest. A Type 2 Incident Management Team (Broyles) is assigned. This incident, comprised of the Mineral-Primm, Stuart Peak, Upper Rattlesnake, and Boles Meadows fires, is in timber, 19 miles northeast of Missoula, MT. A warming and drying trend brought many smokes to life. Active surface fire with isolated torching occurred in unburned interior islands.

COONEY RIDGE, Southwestern Land Office, Montana Department of Natural Resources & Conservation. A Type 2 Incident Management Team (Kechter) is assigned. This fire is in timber, 11 miles east of Florence, MT. Active ground fire, torching and short, wind and terrain-driven crown runs were observed. Structure protection is in place for 100 residences.

GOLD 1, Bitterroot National Forest. A Type 2 Incident Management Team (Swope) is assigned. This fire is in heavy timber, nine miles northeast of Corvallis, MT. Minimal fire activity with increased interior torching was observed.

BEAVER LAKE COMPLEX, Clearwater National Forest. A Type 2 Incident Management Team (Brunner) is assigned. This incident, comprised of the Beaver Lake, Siah Lake, Moose Lake, Lily Lakes, Bears Oil, Cayuse, Eagle Creek, Eagle Creek East, Fish, Queen Creek, North Howard and Hopeful 2 fires, is 19 miles southwest of Missoula, MT. Small group torching with minor surface runs was observed. Structure protection is in place for 12 residences and four commercial properties.

SLIM'S COMPLEX, Nez Perce National Forest. A transfer of command from Sexton's Type 1 Incident Management Team to a Type 3 organization will occur on 9/4 at 0600. This complex, comprised of the Slim's, Stillman and Poet fires, is 35 miles east of Grangeville, ID. Isolated smoldering and some torching were observed in heavy fuels.

SAPP, Nez Perce National Forest. A transfer of command from Sexton's Type 1 Incident Management Team to a Type 3 organization will occur on 9/4 at 0600. This incident, comprised of the Sapp and Richardson fires, is in timber and grass, 22 miles south/southeast of Elk City, ID. Minimal fire activity was observed. Structure protection is in place for two residences.

CAYUSE LAKE COMPLEX, Clearwater National Forest. A Fire Use Management Team (Cones) is assigned. This incident, comprised of 44 fires, is in timber, 41 miles southwest of Lolo, MT. Low intensity surface fire with some single and group torching was observed. The complex is being managed with a confinement/suppression strategy.

MOLLMAN, Flathead Agency, Bureau of Indian Affairs. This fire is in timber, five miles southeast of Ronan, MT. Group torching and short runs in grass and brush were observed.

UNION, Yellowstone National Park. This fire is in timber, 35 miles east of Ashton, ID. Fire behavior was minimal. The fire is in monitor status.

NORTHWEST AREA LARGE FIRES:

B&B COMPLEX, Deschutes National Forest. A Type 1 Incident Management Team (Anderson) is assigned. This complex, comprised of the Booth and Bear Butte fires, in timber with heavy ground fuels, is 14 miles west of Sisters, OR. Active fire with torching, spotting up to ¼ mile and crown runs was observed. Protection of heavily used recreation areas and commercial timberlands was stressed. Camp Sherman south of USFS Road 1217 is now open to residents. Camp Sherman north of USFS Road 1217 remains under a mandatory evacuation order. The Suttle Lake area remains closed to the general public. State Highway 20 through the fire is open but remains a safety concern.

SQUARE LAKE FIRE, Okanogan/Wenatchee National Forest. A Type 2 Incident Management Team (Furlong) is assigned. This fire is in continuous old growth forest, mixed conifer, heavy dead and downed fuels, and mixed conifer regeneration, 20 miles west of Leavenworth, WA. Fire behavior consisted of backing fire with group torching. Trail and area closures in upper Icicle Creek drainage remain in effect.

GLACIER PEAK COMPLEX, Mt. Baker-Snoqualmie National Forest. This incident is in timber, brush and heavy downed fuels, 16 miles southeast of Marblemount, WA. New starts occurred as the inversion layer lifted.

MOUNT RAINIER COMPLEX, Mount Rainer National Park. This complex, comprised of the Panther, Redstone and Chenuis fires, is in timber with heavy down fuels, 13 miles northeast of Packwood, WA. Both the Panther and the Redstone fires exhibited minimal activity.

MINERAL PARK, Mt Baker-Snoqualmie National Forest. This fire is in heavy timber and second growth, 16 miles southeast of Marblemount, WA. It was formerly part of the Glacier Peak Complex. It was split out from the complex because of its size.

EASTERN GREAT BASIN AREA LARGE FIRES:

WINSLOW IDAHO, Caribou-Targhee National Forest. This fire is in timber, downed fuels and grass, nine miles north of Kilgore, ID. Creeping ground fire with isolated torching in unburned islands was observed.

SOUTH RIDGE, Southeast State, Utah State Division of Forestry Fire & State Lands. This fire is in mixed conifer and heavy logging slash, 25 miles northwest of Wellington, UT. Slow backing fire with occasional torching was observed.

NORTH FORK LICK, Payette National Forest. This incident, comprised of the Marble and North Fork Lick fires, is in sub-alpine fir with dead and down fuels, 18 miles northeast of McCall, ID. Fire behavior was limited to smoldering and creeping with isolated smokes.

MIDDLE FORK COMPLEX, Salmon-Challis National Forest. A Fire Use Management Team (Clark) is assigned. The complex, comprised of the Cougar, Marble, Prospect, Mahoney, Teapot, Falconberry and Trapper fires, is 25 miles northwest of Challis, ID. Fire activity was limited to the burnout of heavy fuels and individual torching. Very little growth occurred. The complex is in monitor status.

ROCKY MOUNTAIN AREA LARGE FIRES:

BOULDER BASIN 2, Shoshone National Forest. This fire is in grass, sagebrush and timber, 25 miles southwest of Cody, WY. Isolated interior smoldering was observed in heavy fuels, snags, and logs.

BLACKWATER COMPLEX, Shoshone National Forest. This complex, comprised of the Blackwater and Norris fires, is 30 miles west of Cody, WY. Interior smokes from snags and logs were observed.

SRA = Standing Rock Reservation, Bureau of Indian Affairs

NORTHERN CALIFORNIA AREA LARGE FIRES:

SANTA CLARA COMPLEX, Santa Clara Unit, California Department of Forestry & Fire Protection (CDF). A CDF Type 1 Incident Management Team (Chuchel) is assigned. This complex is comprised of 23 lightning fires: seven active large fires and 16 contained fires. The complex is in chaparral, timber and grass, ten miles south of Livermore, CA. Interior burn outs were conducted to strengthen existing lines.

COD COMPLEX, Tahoe National Forest. A Type 2 Incident Management Team (Wendt) is assigned. This fire, comprised of the Codfish fire and approximately 25 additional lightning fires, is in mixed conifer with heavy dead and down fuels, 6 miles northeast of Foresthill, CA. 25 of the fires are contained; the Codfish fire remains active. Backing surface fire with occasional torching was observed on very steep and inaccessible terrain. Structure protection is in place for 20 residences and one commercial property.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

WEST KERN, Sequoia & Kings Canyon National Park. This lightning-caused Wildland Fires Use (WFU) incident is being managed to accomplish resource objectives. This fire is in Jeffery pine and mountain chaparral, 30 miles southeast of Lone Pine, CA. The fire is in monitor status.

MOUNTAIN COMPLEX, Stanislaus National Forest. This fire, in red fir litter and high elevation brush, is seven miles southeast of Pinecrest, CA. Lightning and gusty winds were problematic.

OUTLOOK:

Weather Discussion: High pressure will continue to control the weather of the western states, with temperatures staying above normal through Wednesday. Flow around the high pressure system over the Great Basin will start to pump moisture into the southern parts of the Sierras today as well. This moisture should spark thunderstorms in the southern California mountains.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
NORTHERN ROCKIES AREA Mostly sunny	West of the Divide: 85 to 100 East of the Divide: 70 to 85	West of the Divide: 8 to 15% East of the Divide: 15 to 25%	West of the Divide: East 5 to 15 mph. North decreasing. Otherwise light and variable. East of the Divide: North to east 5 to 15 mph. North 10 to 15 mph with gusts east Montana.
NORTHWEST AREA Sunny, warm and dry.	80s and 90. Low 100s in southwest Oregon interior.	Very Dry. Westside: 15 to 25% locally; under 10% in southwest Oregon. Eastside: 5 to 15%.	Pretty typical. Generally northwest to northeast 5 to 15 mph.
EASTERN GREAT BASIN AREA Idaho, Bridger-Teton: Mostly sunny and dry except for partly cloudy over southeast Idaho with a slight chance of showers and thunderstorms. Utah, Arizona Strip: Partly cloudy with isolated to widely scattered showers and thunderstorms, mainly over the mountains.	Idaho, Bridger-Teton: 64 to 78 mountains, 78 to 94 valleys. Utah and Arizona Strip: 66 to 80 in higher elevations; 80 to 99 valleys.	Idaho, Bridger-Teton: 11 to 23%. Utah, Arizona Strip: 10 to 25% valleys, 15 to 35% mountains.	Idaho, Bridger-Teton: Light and variable. Utah, Arizona Strip: Light upslope. Gusty winds near storms.
ROCKY MOUNTAIN AREA Becoming partly cloudy with isolated to scattered thunderstorms.	80s to lower 90s lower elevations, 70s in mountains.	20 to 35%.	Variable 8 to 18 mph, except northwest 10 to 25 mph northeast Rocky Mountain Area.
NORTHERN CALIFORNIA AREA Night and morning coastal fog and low clouds. Clear elsewhere with increasing clouds with a chance of showers and thunderstorms in the south late in the day.	Warmest inland valleys upper 90s to around 106. 60s to mid 70s near the coast.	10 to 20% driest inland areas.	Southwest to northwest 4 to 7 mph gusts 14 to 20 mph in the afternoons.
SOUTHERN CALIFORNIA AREA Patchy morning low clouds and fog along the coast, otherwise mostly sunny. Partly cloudy over the mountains and deserts with scattered afternoon thunderstorms.	70 to 80 coastal areas. 80 to 90 in the mountains. 88 to 98 in the valleys. 90s in the upper desert. 102 to 108 low desert.	20 to 35% desert. 20 to 35% mountains. 15 to 30% valleys. 50 to 65% coast.	Southeast 8 to 15 mph.

Standard Fire Orders

The NWCG approved a revision of the Standard Fire Orders, in accordance with their original arrangements. The orders are arranged according to their importance and grouped in logical sequence. Review and consider Standard Fire Orders as a part of every shift.

- Did you receive or request adequate weather briefing, current and predicted fire behavior, wind direction, predicted humidity, fuel moisture, local factor?
- Do you have map of the fire? Is topography, type of fuels, direction of the spread defined?
- Fire behavior group deals with what the firefighter will encounter - weather, fire status, fire behavior.
 1. Keep informed on fire weather conditions and forecasts.
 2. Know what your fire is doing at all times.
 3. Base all actions on current and expected behavior of the fire.
- Are you familiar with direction, distance, location, size of escape routes and safety zones?
- Discuss the need for lookout, such as extreme fire behavior, fire located out of line-of-sight.
- Discuss importance of the situational awareness.
- Fireline safety group emphasizes personal safety.
 4. Identify escape routes and safety zones and make them known.
 5. Post lookouts when there is possible danger.
 6. Be alert. Keep calm. Think clearly. Act decisively.
- Review importance and means of passing tactical decisions and resource movement.
- Review other factors influencing potential changes in tactics, which could affect control of your forces.
- Organizational Control group is centered around tactical decisions.
 7. Maintain prompt communications with your forces, your supervisor and adjoining forces.
 8. Give clear instructions and insure they are understood.
 9. Maintain control of your forces at all time.
- After you have considered, discussed and acted on the previous nine orders:
 10. Fight fire aggressively, having provided for safety first.
